LINNET	SHEEP
LICHEN	POND

Dictionary mix up

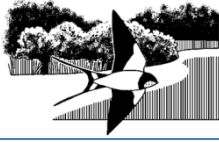

Which word goes with which meaning?

Draw arrows to show the right answers. We've done one for you.

Pond	A dry, sandy habitat. Gorse grows on many of these and heather grows on some.
Common	A very spiky plant with yellow flowers and seeds in pods. Flowers smell like coconut.
Lichen	A small area of not-running water.
Sheep	An animal with long ears and a short tail. Lives in a burrow.
Gorse	A piece of land which local people can use. In the past they could keep animals on it or gather fuel (wood or peat) from it for their homes.
Rabbit	A pink and brown songbird. Builds its nest in gorse. They used to be very common breeding birds in the area. Now very uncommon.
Linnet	A farm animal which eats grass and grows wool. Norfolk Horn sheep and Southdown sheep graze LOHP sites.
Heath	A plant-like thing which is stiff and grows on bare soil (or rocks or trees). It is actually an alga and a fungus living together.

Words to find

DITCH SNIPE
REDSHANK REED
MEADOW CATTLE
HEDGE SLUICE

Dictionary mix up

Which word goes with which meaning?

Draw arrows to show the right answers. We've done one for you.

Reed	A long thin dug-out depression in a piece of land, often full of water. May act as a drain.
Meadow	Brown-stripey wading bird with a hugely long beak. Likes wet meadows. They used to be very common breeding birds in the area. Now very uncommon.
Ditch	Wading bird with red beak and red-orange legs. Used to be a very common breeding bird in the area. Now very uncommon.
Sluice	Very tall feathery-topped grass. Grows in wet places. Used to be used for thatching roofs.
Hedge	Grassy area with flowers, where sheep or cattle graze.
Snipe	Farm animals which graze the LOHP sites. Most of them are a breed called Red Poll. They can live well on the poor grass, and they stop the grass growing tall and smothering the small, rarer plants.
Redshank	Line of trees, growing very close together and looked after as a boundary.
Cattle (one cow: many cattle)	A device in a ditch or river which controls the flow of water.

Words to find

FEN	SALLOW	TEAL
PEAT	POND	TURF
ALDER	WILLOW	
ORCHID	BETTY	

Dictionary mix up

Which word goes with which meaning?

Draw arrows to show the right answers. We've done one for you.

Fen	First name of the person (Betty Williams) who used to own this piece of land, and wanted local people to enjoy it in the future.
Alder	Wetland covered with plants like reed and sedge. Most have now been drained for farming, so fen wildlife is now rare. The LOHP restores and looks after good local fens for wildlife and people.
Teal	A kind of willow. Another name is 'pussy willow'. Twigs can be used for weaving baskets and fence panels.
Willow	A small area of not-running water.
Betty	Britain's smallest duck. Makes a short whistle instead of a quack.
Peat	A tree which grows well by water. Has roundish leaves. Fruit looks like little cones.
Turf	A general name for several species of tree which grow well beside water.
Pond	A plant. Has flowers on a single stem and simple leaves. Several species grow on LOHP sites.
Orchid	A block of peat, dug up for fuel
Sallow	The black soil made of the un-rotted remains of fallen, dead plants. It forms in wet places over thousands of years, and can be metres deep. In the past it was burnt in local homes for heating and cooking.

Words to find

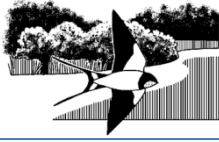

PASTURE HEDGES OUSE
POLLARD POND PEAT
SNIPE PUFFBALL
FRITH LITTLE OWL

Dictionary mix up

Which word goes with which meaning?

Draw arrows to show the right answers. We've done one for you.

Puffball	Old English word for grazing land with scattered trees.
Pasture	Lines of trees, growing very close together. Regularly cut to make a thick boundary.
Little Owl	A tree cut off above head height which regrows. This is done to stop deer, sheep and cattle eating off the new young shoots.
Pollard	A small area of not-running water.
Peat	A round, white fungus. Fairly common. Giant ones can grow eNORMous. Much bigger than a football.
Frith	The black soil made of the un-rotted remains of fallen, dead plants. It forms in wet places over thousands of years, and can be metres deep. In the past it was burnt in local homes for heating and cooking.
Hedges	Brown-stripey wading bird with a hugely long beak. Likes wet meadows. They used to be very common breeding birds in the area. Now very uncommon.
Snipe	The river which joins the Great Ouse. Together they flow out to the sea at Kings Lynn.
Ouse	Our smallest owl. Nests in holes in trees. Eats a lot of worms and insects. Brought to Britain and released into the wild 170 or so years ago. Often active in the day.
Pond	Grassy land used for grazing animals.

Words to find

GORSE	REED	HEATH
SEDGE	LICHEN	POND
LING	MARSH TIT	
PEAT	WET FEN	

Dictionary mix up

Which word goes with which meaning?

Draw arrows to show the right answers. We've done one for you.

Marsh tit	Wetland covered with plants like reed and sedge. Most fens have now been drained for farming, so fen wildlife has become rarer. The LOHP is restoring and looking after some good fens here for wildlife and people.
Pond	Very tall feathery-topped grass. Grows in wet places. Can be used for thatching roofs.
Lichen	A dry, sandy habitat. Gorse grows on many of these and heather grows on some.
Heath	A small area of not-running water.
Wet fen	A plant which looks a bit like grass. Grows in wet places. Most species have triangular stems.
Reed	Black soil made of un-rotted remains of fallen, dead plants. It forms in wet places over thousands of years, and can be metres deep. In the past it was dug up and dried and burnt in local homes for heating and cooking.
Sedge	Small, neat cousin of the blue tit. Mostly lives in woodland. Nests in a hole usually in a tree.
Peat	A plant which grows on sandy heaths. Another name is common heather.
Gorse	A plant-like thing which is stiff and grows on bare soil (or rocks or trees). It is actually an alga and a fungus living together.
Ling	A very spiky plant with yellow flowers and seeds in pods. Flowers smell like coconut.

Words to find

BEETLE	RIVER	PEAT
CATTLE	SHEEP	FLOOD
REED	BOARD WALK	BUGS
BRIDGE	WINDMILL	

Dictionary mix up

Which word goes with which meaning? Draw arrows to show the right answers..

River	A wooden path laid in a wet place so walkers can get through with dry feet.
Cattle	A flowing body of water
Board walk	Black soil made of un-rotted remains of fallen, dead plants. It forms in wet places over thousands of years, and can be metres deep. In the past it was dug up and dried and burnt in local homes for heating and cooking.
Bugs	Farm animals which graze some LOHP sites. Most of them are a breed called Red Poll. They can live well on the poor grass, and they stop the grass growing tall and smothering the small, rarer plants.
Beetle	A farm animal which eats grass and grows wool. Norfolk Horn and Southdown sheep graze LOHP sites.
Windmill	Water which has spilled over into places it doesn't usually cover.
Peat	Very tall feathery-topped grass. Grows in wet places. Can be used for thatching roofs.
Flood	A structure which lets people get from one side of a river to the other.
Sheep	An insect with hard wing cases which chews its food. A ladybird is an example.
Reed	Insects which suck their food. Aphids and water boatmen are examples.
Bridge	A building using the wind to turn sails which turn stones and grind corn. The one at Thelnetham was built in 1819.
